POLL TAX THEORY

Report of Payment of These Fees by Republicans Is Insufficient.

The overwhelming defent of Hon. J. C. Wysor by Colonel Campbell Siemp in the Ninth Congressional District on Novem-The overwhelming defeat of Hon. J. C. Wysor by Colonel Campbell Slemp in the Ninth Congressional District on November 8th, came as a complete surprise to many Democrats, and they are at a loss how to account for the tremendous Republican gain in that district, when the party made no noteworthy gains in the other districts. Many explanations have been given, many causes for the decrease of the Democratic and the increase of the Republican vote have been suggested, but many admit they are wholly unable to explain the result. Some attribute Colonel Slemp's re-election by the unprecedented plurality of 3,917, whereas he was elected over Hon. William F. Rhea two years ago by but 218 majority, to the liberal use of money by the Republicans for the paymbnt of poll taxes of acpublican voters and to other expenditures of questionable legality.

In the light of intelligent comparison of the figures of the two elections, however, this claim is not fully borne out. It appears that many Democrats who woted for Mr. Rhea in 1992 did not vote for Mr. Wysor in 1904, but whether they were qualified to vote and remained away from the polls through apathy or whether many of them changed their fealty and voted for the Republican candidate, are matters for speculation, which wither they were qualified to vote and remained away from the polls through apathy or whether many of them changed their fealty and voted for the Republican candidate, are matters for speculation, which will probably nover be determined, absolutely.

In 1902, Mr. Rhea carried Buchanan, Craig, Dickinson, Glies, Russell, Scott, Washington and the city of Bristol, lacked two votes of carrying Pulaski; fifteen of carrying Bland, and fifty-one of carrying Bland, and fifty-one

creased 1,333 over that in 1902, while the Democratic vote in 1901 decreased 1,755, compared with that cast for Rhea in 1902, Republican Increase.

From these figures it would appear that even with the poll tax to pay, the Repub-licans vote increased nearly 2,000 over that licans vote increased nearly 2,000 over that of 1992, when payment of the tax was not required as a prerequisite to suffrage. On the other hand, the Democratic vote in 1994, with the poil tax prerequisite decreased nearly eighteen hundred, compared with 1902, when there was no poil tax requirement. Even though it is additionally and the property of the payment of tax requirement. Even though it is admitted that many Democrats lost votes through failure to pay the poll tax, this does not account for the even greater Itepublican vote, despite the poll tax requirement. It is plain, therefore, that 1,333 men in the district who had formerly voted the Democratic ticket, or who did not vote at all in 1962, voted the Republican ticket in 1994. It is rather a coincidence that almost that number voted for Rhea in 1992, and did not vote for Wysor in 1994.

Here is a table of counties showing the Democratic gains or losses and the Republican gains or losses and the Republican gains or losses in 1994, compared with 1902:

Democratic losses—Bristol city, 205; Bland, 67; Buchanan, 146; Dickenson, 29; Lee, 390; Russell, 432; Scott, 296; Smyth, 27; Tazewell, 96; Washington, 386; Wythe, 52, Total losses, 2,036, — Democratic gains—Craig, 56; Giles, 13; Pulaski (Mr. Wysor's home), 138; Wise (Colone: Slemp's home), 83. Total gains in district over 1962 vote, 290, Republican gains—Bristol city 42; Buchanan county, 136; Craig, 26; Dickenson, 117; Lee, 32; Russell, 206; Scott; 397; Smyth, 147; Tazewell, 135; Washington, 336; Wise, 268; Wythe, 131. Total Republican gains over the 1902 vote, 1,967. Republican losses—Bland, 21; Giles, 6; Pulaski, 7. Total losses compared with 1902 vote, 34.

STARVED TO DEATH. Our text to-day is the story of the miser who taught his ass to live on straw, of which he gave him a smaller portion every day. the miser had got him so trained

as to eat one straw a day, the poor ass

died.

Ile is an ass who starves himself to death—as thousands are doing, misled by foolish teachers—because their stomachs have become too weak, through neglect or disease, to do the work which nature has provided for their stomachs to do.

Because the engine is out of gear, would the configuration to the tunk heap?

Because the engine is out of gear, would you consign it to the junk heap?
Why, no! Mend it!
Commit slow suiclds because your digestive organs leak?
Certainly not! Take Stuart's Dyspepsia

Certainly not! Take Stuart's Dyspepsia Tablets.
One thing is sure as shooting, You can never get a new stomach, You must mend it, or it will lead you a miserable existence.
The only way to mend it is to take Stuart's Dyspepsia Tablets.
This has been practically and sclentifically domonstrated by the many thousands whom Stuart's Dyspepsia Tablets have positively cured, after every other reatment of medicine, mineral waters, pills, and slow, suicidal starvation had failed.
These methods are all unscientific—

presiment of medicine, mineral waters, pills, and slow, suicidal starvation had failed.

These methods are all unscientific—therefore failes.

Stuart's Dyspepsia Tablets are scientific—therefore true and successful.

Having cured so many thousands—many of whom doubtless have suffered more than you do-do we claim too much when we say that Stuart's Dyspepsia. Tablets will surely do good to you?

Eurely not.

Poscially when we make it plain that no promise is made to cure more than one desease—Dyspepsia.

Stuart's Dyspepsia Tablets are a positive cure for just this one disease.

They are a scientific combination of ingredients which search out the weak spots in all the diseast out the weak spots in all the diseast out the weak spots in all the diseast out the water than the memory and well.

They have an ammediate digestive action on undirected food, and thus, while curing weak organs, they at the same time help them to do their work.

They thus stand for all that is good in the medical treatment or Dyspepsia, and for nothing that is had.

They are not a Cad but a fact.

Court Determined That There Shall be No Hitch in Second Trial of Nan Patterson.

NEW YORK, December 6.-Within the last half hour before adjournment to-day, the sixth and seventh jurors for the trial of Nan Paterson on the charge of murderling Caesar Young, took their places in the jury box in the criminal branch of the Supreme Court before Justice Vernon M. Davis.

Six of the seven men chosen ar the work of selecting men to sit at the trial had proceeded slowly, only two being accepted. When the change came and the sixth and seventh places were filled quickly. Miss Patterson shewed every sign of satisfaction and assured her father, who sat beside her, of her confidence in an early acquittal. Great attention is being given to the health of the jurors, with a view to preventing a recurrence of the trouble which brought the former trial to an end. Each juror is questioned closely as to his physical condition, and medical experts are at hand to make examinations should it be necessary.

at hand to make examinations should it be necessary.

Miss Patierson is taking a keen interest in the selection of the men who are to décide her fate. To her the attorney for the defense always looks for a nod of aproval or a head shake, indicating her dissatisfaction before the final word is given. In the first trial it was said that Nan Patterson chose her own jury. From her attitude thus far, it seems evident that she will do her best to select twelve men who will be acceptable to her as were the others. This time she has two hundred men from whom she may make hundred men from whom she may make

GRATIFYING SALES.

Nearly Seventy Thousand Pounds of Loose Tobacco Sold Yesterday. of Loose Tobacco Sold Yesterday.

Despite the heavy degrapour of Monday and the softness of the roads, making it difficult to haul tobacco to market, the sales were gratifyingly large at the various warehouses yesterday. Nearly seventy thousand pounds were sold, the total being very evenly divided among the four houses. Shelburne's led, with Stonewall a close-second, and Shockoe and Cronshaw close behind them. No fine grades were offered and there were consequently no noteworthy high prices.

Now that the weather has turned clear and cool and the roads are rapidly hardening, the large quantity of tobacco stripped during the recent season is expected to come to market, and unless this expectation be disappointed the sales will be larger to-day and during the remainder of the week.
